### PROFESSIONAL EXPERIENCE

#### Tata Consultancy Service

May 2022 - Present

- Designed and developed responsive and dynamic user interfaces for travel and transportation applications, prioritizing a seamless user experience. Proficient in Angular 2+, typescript, HTML5 and CSS to build modular and reusable front- end components.
- Integrated RESTful APIs to fetch and manipulate data, ensuring smooth data flow and improved application efficiency.
- Designed responsive UI components to support both mobile and desktop platforms.
- Efficiently identified and resolved front-end bugs and performance issues to maintain the application's reliability.
- Participated in daily standups, sprint planning, and code reviews as part of an Agile/Scrum team.
- Collaborated with the QA team to ensure high-quality software delivery for writing test cases and performing manual testing.
- Provided basic support in .NET back-end development, focusing on log handling and implementing small scale fixes.
- Assisted back-end team with API testing and data flow validation using Postman, Couchbase and GCP.

### EDUCATION

#### Bachelor of Engineering

2017 - 2021

Government College of Engineering, Thanjavur.

- Completed with 7.45 CGPA.
